Re: Draft Consent Agreement and Final Order
Docket No. CWA-06-2011-4813
South Chauvin Production Facility - Inspection No: FYINSP-100120
SPCC Violations during a 4/6/2010 Inspection

Dear Mr. deLaunay:

On 4/6/2010, the subject facility was inspected by the Environmental Protection Agency (EPA). During the inspection, violations of the Spill Prevention, Control and Countermeasures (SPCC) regulations were found. The specific allegations are identified in the enclosed draft Consent Agreement and Final Order (CAFO). EPA has authority under Section 311 of the Clean Water Act to pursue civil penalties for violations of the SPCC regulations. EPA encourages the settlement of easily verifiable violations of SPCC requirements, such as the violations cited in the CAFO. The enclosed CAFO has been issued in accordance with 40 CFR Part 22, "Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties, Issuance of Compliance or Corrective Action Orders, and the Revocation, Termination or Suspension of Permits" (available upon request).

If Hilcorp Energy Company wishes to settle this matter without further legal action, the enclosed CAFO should be returned, signed by an authorized official of the company within thirty (30) days of receipt of this letter. Final issuance of the CAFO may be subject to additional verification that all necessary corrective actions have been completed. The CAFO, once finalized, is binding on both you and EPA. Upon conclusion of the final action, EPA will take no further action against you for the violations cited in the CAFO.

The original, signed, CAFO must be sent via CERTIFIED MAIL to:

OPA Enforcement Coordinator
U. S. Environmental Protection Agency
Region 6 (6SF-PC)
1445 Ross Avenue
Dallas, Texas 75202-2733

Upon receipt and processing of the signed document, EPA will forward to you copies of the fully executed CAFO. Penalty payment is not due until thirty (30) days after EPA has returned the fully executed CAFO to you.

By terms of the CAFO, and upon payment of the penalty, you waive your opportunity for a hearing pursuant to Section 311 of the Clean Water Act. You have the right to be represented by an attorney at any stage of the proceedings, including any informal discussions with EPA.

If you elect not to sign and return the CAFO within 30 days of your receipt of this letter and pay the penalty, unless an extension has been granted by EPA, the CAFO will be automatically withdrawn, without prejudice to EPA's ability to file an enforcement action for the cited violations. EPA can pursue more formal enforcement measures to correct the violation(s) and seek penalties of up to \$11,000 per violation up to a maximum penalty of \$32,500.

Hilcorp Energy Company may request an informal conference to discuss the facts of this case. In the event that a settlement cannot be reached, EPA may elect to file an Administrative Complaint and Opportunity to Request Hearing and Conference (Complaint) in accordance with 40 C.F.R. Part 22. If a Complaint is filed, Hilcorp Energy Company, will have the right to request a hearing to contest the factual allegations set forth in the Complaint.

If you have any questions, or if you wish to schedule an informal settlement conference, please contact Nelson Smith at (214) 665-8489.

Sincerely,

for Robert R. Broyles
Associate Director

LEGAL AUTHORITY

1. This Consent Agreement is proposed and entered into under the authority vested in the Administrator of the U.S. Environmental Protection Agency ("EPA") by Section 311(b)(6)(B)(i) of the Clean Water Act ("Act"), 33 U.S.C. § 1321(b)(6)(B)(i), as amended by the Oil Pollution Act of 1990, and under the authority provided by 40 CFR §§ 22.13(b) and 22.18(b)(2). The Administrator has delegated these authorities to the Regional Administrator of EPA, Region 6, who has in turn delegated them to the Director of the Superfund Division of EPA, Region 6, who has, by his concurrence, re-delegated the authority to act as Complainant to the Associate Director Prevention and Response Branch in Region 6, Delegation No. R6-2-51, dated February 13, 2008 ("Complainant").

CONSENT AGREEMENT

Stipulations

The parties, in their own capacity or by their attorneys or other authorized representatives, hereby stipulate:

Docket No. CWA-06-2010-4813

2. Section 311(j)(1)(C) of the Act, 33 USC § 1321(j)(1)(C), provides that the President shall issue regulations "establishing procedures, methods, and equipment and other requirements for equipment to prevent discharges of oil from onshore vessels and from onshore facilities and offshore facilities, and to contain such discharges"

3. Initially by Executive Order 11548 (July 20, 1970), 35 Fed. Reg. 11677 (July 22, 1970), and most recently by Section 2(b)(1) of Executive Order 12777 (October 18, 1991), 56 Fed. Reg. 54757 (October 22, 1991), the President delegated to EPA his Section 311(j)(1)(C) authority to issue the regulations referenced in the preceding Paragraph for non-transportation-related onshore facilities.

4. Through Executive Order 12777 (October 18, 1991), 56 Fed. Reg. 54757 (October 22, 1991), the President delegated to DOI, responsibility for spill prevention and control, contingency planning, and equipment inspection activities associated with offshore facilities. Subsequently, pursuant to section 2(i) of E.O. 12777, the Secretary of the Interior redelegated, and the Administrator of EPA agreed to assume (MOU published as Appendix B to 40 CFR Part 112), responsibility for non-transportation-related offshore facilities located landward of the coast line.

5. EPA promulgated the Spill Prevention Control & Countermeasure (SPCC) regulations pursuant to delegated statutory authorities, and pursuant to its authorities under the Clean Water Act, 33 USC § 1251 *et seq.*, which established certain procedures, methods and other requirements upon each owner and operator of a non-transportation-related onshore or off-shore facility, if such facility, due to its location, could reasonably be expected to discharge oil into or upon the navigable waters of the United States and their adjoining shorelines in such quantity as

EPA has determined in 40 CFR § 110.3 may be harmful to the public health or welfare or the environment of the United States (“harmful quantity”).

6. In promulgating 40 CFR § 110.3, which implements Section 311(b)(4) of the Act, 33 USC § 1321(b)(4), EPA has determined that discharges of harmful quantities include oil discharges that cause either (1) a violation of applicable water quality standards or (2) a film, sheen upon, or discoloration of the surface of the water or adjoining shorelines, or (3) a sludge or emulsion to be deposited beneath the surface of the water or upon adjoining shorelines.

7. Respondent is a Corporation conducting business in the State of Louisiana, with a place of business located at 1201 Louisiana Street, Suite 1400, Houston, Texas 77002, and is a person within the meaning of Sections 311(a)(7) and 502(5) of the Act, 33 U.S.C. §§ 1321(a)(7) and 1362(5), and 40 CFR § 112.2.

8. Respondent is the owner within the meaning of Section 311(a)(6) of the Act, 33 USC § 1321(a)(6), and 40 CFR § 112.2 of an offshore oil production facility, the South Chauvin Production Facility, located in, Terrebonne Parish, Louisiana (“the facility”). The approximate coordinates of the facility are 29.77250° N and -90.61500° W. Drainage from the facility travels directly into and upon Shell Canal; thence to the Gulf of Mexico.

9. The facility has an aggregate above-ground storage capacity greater than 1320 gallons of oil in containers each with a shell capacity of at least 55 gallons. Facility capacity is approximately 875,994 gallons.

10. Shell Canal and the Gulf of Mexico are all navigable waters of the United States within the meaning of 40 CFR § 112.2.

11. Respondent is engaged in drilling, producing, gathering, storing, processing, refining,

transferring, distributing, using or consuming oil or oil products located at the facility.

12. The facility is a non-transportation-related facility within the meaning of 40 CFR § 112.2 Appendix A, as incorporated by reference within 40 CFR § 112.2.

13. The facility is an offshore facility within the meaning of Section 311(a)(10) of the Act, 33 USC § 1321(a)(11), 40 CFR § 112.2, and 40 CFR § 112 Appendix B.

14. The facility is therefore a non-transportation-related offshore facility which, due to its location, could reasonably be expected to discharge oil to a navigable water of the United States or its adjoining shorelines in a harmful quantity ("an SPCC-regulated facility").

15. Pursuant to Section 311(j)(1)(C) of the Act, E.O. 12777, and 40 CFR § 112.1 Respondent, as the owner of an SPCC-regulated facility, is subject to the SPCC regulations.

16. The facility began operating before August 16, 2002.

18. On 04/06/2010, EPA inspected the facility and found that Respondent had failed to fully implement its SPCC plan for the facility. Respondent failed to fully implement such an SPCC plan for the facility as follows:

- b. Training not in accordance with 112.7(f)
- c. Plan does not address sump pump redundancy per 112.11(c)
